"PARA" material characteristics:

- is made on the basis of acrylic and therefore looks like a fabric,
- Weight 360g / m2
- Much larger choice of colors (color chart over 20 different colors)
- Due to the wide range of it is much easier to combine the color with bimini, sprayhood and other covered parts on the boat.
- High water resistance
- High UV resistance
- Use in all seasons and in all weathers
